

December 9th, 2016

Clark-Reliance Corporation of Strongsville, Ohio, USA is pleased to announce that we have acquired Enervac Corporation of Cambridge, Ontario, Canada. Due to legal and tax requirements the name Enervac Corporation has been changed to Enervac International ULC. The Enervac business will continue to be managed by Anthony Guglielmi and Dave Buchan and both Anthony and Dave are officers of Enervac International ULC.

Enervac has built a great brand over the years and as such has developed many great partnerships with customers, distribution companies and suppliers. We expect those partnerships to not only be maintained but to grow along with us over the coming years.

We have been fortunate to retain the entire Enervac team and we expect to grow the business with this team in the existing Cambridge, Ontario facility.

Clark-Reliance has many strong brands, a global sales organization and joint ventures in Brazil and India that will contribute to Enervac's growth. In addition, our manufacturing facilities in Strongsville and Boerne, Texas will provide resources to the Enervac range of products.

You can learn more about both companies by visiting www.clark-reliance.com or www.enervac.com.
